Medical Humanities is a leading international journal that reflects the whole field of medical humanities. Medical Humanities aims to encourage a high academic standard for this evolving and developing subject and to enhance professional and public discussion. It features original articles relevant to the delivery of healthcare, the formulation of public health policy, the experience of being ill and of caring for those who are ill, as well as educational case studies, book, film and art reviews, editorials, correspondence, news and notes. To ensure international relevance Medical Humanities has Editorial Board members from all around the world.

Editorial advisory board
